Based on feedback, multiple changes were made to the Coach UI in the C&L system. There are a number of enhancements and features now available for club admins when viewing and filtering/searching for coaches.

- Removed the Age/ID verification dot which was confusing
- Added Gender
- Added Role on the screen (filter capability too)
- Added Registration Event and Registration Category
- Added Background Check Status so admins can view (and search/filter by) statuses right on this Find screen instead of clicking on each individual coach. The Statuses have expanded beyond Cleared/Not Cleared to provide further information for club admins.

- Can now search/filter by a birthdate range
- Can filter by coach all coach uploads (safety certificate, concussion document, abuse prevention)
